

Who says Barack Obama hasn't kept his campaign promises?

“We are five days away from fundamentally transforming the United States of America.”

-Barack Obama, election eve, 2008

His Achievements So Far?

- **The virtual bankruptcy of our economy.** The national debt is at \$12.5 trillion and rising. The current generation of students will hold the IOUs on this debt, which will grow exponentially if Obamacare becomes law.
- **More than 35 “Czars”** controlling billions of dollars and making management decisions about everything from our auto industry to “green” jobs to urban development.
- **An all out effort to socialize our health care!** Obamacare will bankrupt us (\$1.2 trillion over the next decade!) and make us sicker. Anyone who has cooled their heels at the Post Office or waited in a security line at an airport has had a glimpse of their future relationship with their doctor.
- **Raising our taxes.** Obama’s first budget will consume 28% of the entire GDP! He plans to repeal current tax cuts, raise income taxes, the capital gains tax and block the repeal of the estate tax (death tax) as part of his redistribution. In addition to these increases, he is pushing a “cap and trade” bill that will cost the average family of four \$1500 a year in increased energy costs.
- **Undermining the War on Terror:** By promising to close Guantanamo and allowing for foreign terrorists including 9/11 mastermind Khalid Sheikh Mohammed to be tried in criminal courts, Obama has put the nation at risk.
- **Appeasing Dictators:** The President has made nice with Hugo Chavez and bowing down to King Fahd, while cold shouldering our Israeli allies and ignoring the brave struggle of Iranian dissidents. America’s promotion of democracy and human rights have been replaced by an eager ness to hold “talks” with tyrants.

...And There’s More to Come.
